Personally appeared before me the 2nd day of July, 1910, R. D. MacMillen, Business Manager of The Sun, who affirms that the foregoing is a true and correct statement of its circulation for the month of June, 1910, to the best of his knowledge and belief.

PETER PURYEAR,
Notary Public.

My commission expires January 10, 1912.

Daily Thought.

He was but as the cuckoo in June.
Heard, but not regarded.
—Shakespeare.

Fulton woke up late this morning.

All right, we will be glad to welcome the Cotton Belt, too.

Notoriety is about the cheapest thing one can get these days.

A fly never thinks of wiping its feet before stepping into the butter.

Didn't Jim Jeffries' father get the hand of God confused with the fist of Johnson?

The Courier-Journal puts the Newark, Ohio, lynching in the same class with the Boston Tea Party.

King Alfonso must be a well balanced young man. He has been sitting on a tottering throne for several years.

Did you ever consider the fact that people who pass that weed-grown vacant lot of yours, inquire, "whose lot is that?"

Nothing weakens one's vocabulary more than knowing the meaning of too many words. We're homeopaths in that.

Chicago is out with a boast of population, based on the school census. Better wait for the real figures. It might save embarrassment.

It is plucky for the association to go ahead increasing the premiums and purses for the fall fair after rain ruined the July races. None but the brave deserve the fair.

The leasing of the Auditorium rink for a tobacco warehouse about exhausts the present resources of the city for housing the weed; but we have places to build more.

Those Democrats of the Illinois legislature, who voted for Lorimer, have won the contempt of all good people for selling their honor, and of all bad people for selling so cheap.

The bureau of statistics, department of commerce and labor, is sending out such a continuous stream of figures about every detail of population and environment, we are constrained to believe that verily every hair of our head is numbered.

The future is beyond us, save as we construct it out of the present; the past is behind us, save as we have constructed our present from it; but this is now and we are here, and the power that put us here and gave us now, expects practical results.

It certainly is a disgrace to civilization the way the price of wheat and hay and corn and hogs and eggs and butter have gone up under the Payne tariff. What party will deliver us from the bondage of the scheming farmers?

The completion of the tuberculosis sanatorium at Jackson's hill places Paducah in the front rank of

AFTER GENERAL ASSEMBLY

Active efforts are already being made by certain people and interests to name the nominees for the next legislature of Kentucky. Members of the general assembly will not be elected until a year from next November, but there are evidences in many parts of the state of the activity of those who want a legislature that they can "control" as they did the last one.

Men are being picked out and induced to run, not for their merit or fitness to serve the people, but for their pliability in the hands of the professional lobbyists who hang around Frankfort and their willingness to trade their votes upon any questions, in exchange for some job in a public institution or other valuable consideration.

Probably in no state in the union was the lobby ever more arrogant, bold and powerful than it was in the last two sessions of the Kentucky general assembly. With a large and controlling number of members of those two sessions the term "lobbyists" instead of being an opprobrious epithet seemed to be a title of honor and a passport to their highest and most obnoxious consideration. No men enjoyed the privilege and honors upon the floor of the two houses more than did the known representatives of interests seeking legislative favors.

A sturdy constituent from out in the state, should he have attempted

Kentucky cities in equipment for the protection of human life. The spirit of cooperation and unselfish interest in the welfare of each other, manifested in the work of organization, is as valuable as the plant itself. It is Godsend especially to the poor and afflicted of the city, and is another proof that we best help ourselves in helping others.

THE FAIR AND THE FARMERS.

The farmers of McCracken county must take a hand to make the fall fair a success. They must not stand back and await the offer of cash prizes that will be remunerative. If the premiums pay some portion of the expense of the exhibit, the farmer is repaid many times; but if no premium more than a colored ribbon were given, it is his fair and he is the one who will profit by it. The fair offers the farmers the opportunity for a local exposition, where they may study the results of their own efforts; compare methods and products; learn what the section really is producing, and gain whatever advantage there is in the knowledge thus afforded. Co-operation among agriculturists is a modern necessity, and the more general that co-operation, the better and quicker the results. Farmers do not compete with one another, excepting in the excellence of farm management and production, and that competition is altogether stimulating and in no sense detrimental. The purpose of the fall fair is to raise the standard of production in the county, and the benefits from it will be far reaching. If the farmers take hold of the idea, and put into it a little of their own effort and good will and presence.

STATE PRESS.

Naughty Bardwell!
Arlington citizens are invited to come to Bardwell and spend their Sundays. The lid is not on here, and you can buy anything from a paper of pins to a threshing machine. —Carlisle News.

Where Is Head?
Since the first announcement of Mayor Head's candidacy for the gubernatorial Democratic nomination, has anybody ever heard anything more of it? Did it die a-borning, or was it drowned at the launching of the Whallen boat? —Danville Advocate.

La Center Wheat.
There are three firms here buying and shipping wheat, and more than 6,000 bushels each day have been sold at this point. The price has been good, running from \$1.00 to \$1.05½ per bushel, during the past week, which puts into the hands of our farmers and immense amount of money. —LaCenter Advance.

Absolute Harmony.
Absolute harmony pervades the Republicans of the Third congressional district on the question of a candidate against R. Y. Thomas, Capt. Nat Howard, on August 1, at the district convention to be held in this city, will be held in each of the ten counties to instruct delegates to the Bowling Green convention—Third District Review.

One on the Bar.
A Middlesboro store was broken into and robbed last week. There is nothing at all singular about the fact that this happened while the Lawyer's Association was meeting there. Nothing of the kind occurred when The Kentucky Press association was in that thriving city. All that the editors stole was the hearts of a few of Middlesboro's pretty girls. —Danville Messenger.

A French-German dictionary has been recently issued from Vienna, printed in Braille type, for the use of the blind.

to enter, would have found the doors tightly closed in his face, but a lobbyist, appearing at the entrance, would have found those same doors opened to him as if by the magic word "Same," and a cordial reception awaiting him on the inside.

The early birds are now, even this far in advance, busily at work to catch the worms for the next legislature, and it is their ambition to get together a body in 1912 just as much to their taste and liking as were the last two.

What is the remedy? What steps should be taken to circumvent their evil machinations? The people in every legislative and senatorial district should take hold of the matter for themselves and see that only men of known integrity and ability should be chosen as nominees. They should not vote for men with whom they would not trust their own money or valuables and in whose word they can not have implicit confidence.

A higher estimate should be placed upon the legislative office, and good men, even at a sacrifice to their personal interests, should be induced to accept nominations. The idea that "everybody's business is nobody's business" should be discarded and good citizens in every district should actively organize to see that they are worthily and honorably represented in the general assembly of their state. —Kentucky State Journal.

Kentucky Kernels

Hog cholera in Ballard county. Talk of new hotel at Bardwell. Ryan & Sons' store at Almo burns. Mrs. Wayne Gray, of Frankfort, dies.

Thos. Payne, of Bardwell, drops dead.

Murray fair grounds being put in shape.

Work to start on new Benton school.

Mrs. Susan King, of Russellville, is dead.

Nicholas county farmers abandon wheat crop.

Rural schools to be placed on uniform basis.

Kentucky banks seek government postal money.

Lizzie Aud, of Owensboro, declared insane.

Old Time Fiddlers' contest at Cadiz, July 29.

Kentucky banks found in excellent condition.

Gala day to be held at Cunningham, August 6.

Louisville citizens win suit to diminish taxes.

Citizens of Hyden see land sold on which they lived.

Smoke house of Jess Dowdy, near La Center, robbed.

Madisonville council passes stringent vagrant laws.

G. W. Fentry, of Mt. Vernon, shot by town marshal.

Charles Allred and Neva Harris, of Benton, marry.

Counties must support school for livestock inspectors.

Agreement reached in Lexington Burley tobacco society.

Jim Chappell, Cadiz boy, city editor of Nashville American.

W. T. Helfer sells Millburn flouring mills to his brother.

According to the katydid we are to have frost October 16.

Hopkinsville City Light Co., obtains temporary injunction.

Young daughter of Mrs. Joe Logsdon, of Owensboro, missing.

Experiment station says water in Kentucky is generally pure.

Gov. Kitcher, of North Carolina, will attend governor's convention.

G. B. Coates, this county, fined for shipping infected hog to Louisville.

Pedler and Joe Spann and Flournoy Humphreys, of Murray, engage in fight.

Lack of accommodation for girls at Lexington reform school causes fierce roast.

VOICE OF THE PEOPLE

Ready to Fight Japs.
Camp Gregg, Pangasinan, L. I.
"Dear Old Paduke."

Away over here in far-off Philippines are many of Kentucky's noble sons, and among their thoughts of home and sweethearts are inklings of war, and that with the slant-eyed Japs. As I am a member of the field artillery branch of the service, I want to know that the "artillery" (mountain) is ready. Thanks to Old Kentucky and Missouri for their mules, the greatest animal in the world for mountain artillery. The mountain gun is made so as to be taken apart into four pieces, carried on the backs of mules. It discharges a projectile of 18 lbs. for a distance of 4,000 yards and with the aid of the good old mule, can be taken up any mountain trail. And so we have just completed our annual target practice I know its value in time of war, for this year's practice has been far in advance over the past. There is no more going out on the range at a known distance, and firing at a target you know the size and every detail of. With the present equipment and knowledge of maneuvers, the battery is halted some few thousand yards in the rear, while the scouts find the target being given the general direction only.

When found the battery moves forward cautiously and under cover

of hill or woods, until within range the guns are unpacked from the mules and run by hand until the target can just be seen over the crest then the range is determined by firing a certain number of rounds. Then the fire for effect, is begun, and believe me, it — war. The battery is practiced in firing at clouds of smoke which represent the enemy, a fuse being attached to several small piles of black powder with intervals to represent another battery firing. Also at moving targets drawn on sled-runners. The most exciting is the target that appears along the road side, while the battery is in close or wooded country. Just like an ambush. There's where you take your hat off to the mule for he is the quickest thing you ever saw from under that gun, and it hardly hits the ground before its assembled and fired. People who have never seen a mountain battery can hardly realize. In the recent and only maneuvers held in the Philippines, the mountain battery was assigned to the brown forces representing the Japs, and it was the mule soldiers who decided the fight, all because they could take the same size gun, places where a light battery couldn't go. So the mule is the best mountain climbing animal Uncle Sam can get. The war department has moved us from the most southern post in the island to Jolo, (where there is the only place for a possible outbreak as far as the Philippines are concerned for the rest are very well pleased with American government), to the most northern, our present station, and as China seems to be getting mad, the mules and new way get a chance to show the world their great combination. I will be back to see my friends in Paducah next spring, but I want to say that the "mountain artillery is ready." As ever,

Yours truly,
GEORGE BROWNELL, BARRICKMAN.

Measured Skill.

"You say De Skill plays an ideal game of golf?"

"Yes. He plays well enough to make it interesting for an influential friend without actually beating him." —Harper's Weekly.

A Los Angeles Joke.

Los Angeles is said to be one of the most healthy as well as one of the most beautiful places on earth. Apropos of the healthfulness of Los Angeles, Luther Burbank, the plant wizard recently said:

"The town has for its population, an unprecedented number of octogenarians, nonagenarians, even centenarians. The other day a hale but very aged couple boarded a train out of Los Angeles."

"Going to do a little traveling?" said the conductor.

"Well, no; not exactly," said the old man. "My wife and I, you see, have had about our share of life. I'm 111 and my wife here is 106, and we're going down to San Francisco to die. You can't die in Los Angeles." —Washington Star.

JONES WINS FIGHT FOR JONESBORO

ILLINOIS CENTRAL FINALLY RE-CHRISTENS STATION.

Amusing Controversy Over Name of Station on the Evansville Division.

PERSONALS FROM RAILROADS

One small station on the Evansville district of the Louisville division of the Illinois Central railroad has had its name changed, closing a long battle. The station is 55 miles from Princeton has been known as Highland for many years, despite the fact that citizens have endeavored to have the name changed to Jonesburg. This change of name has just been granted by Vice President W. L. Park. The fact that so many small stations have names derived from the common name Jones, has caused the railroad officials to hesitate in changing the name of Highland.

Much amusement has been afforded passengers who were acquainted with the efforts to have the name of the station changed. After it was christened Highland the principal property owner, whose name is Jones, erected a large signboard on the opposite side of the track with the following inscription: "This is not Highland but Jonesburg." The battle has waged for several years until the railroad officials finally surrendered and the name of the station was changed.

Railroad Personals.

Sam Dadds, a popular employee, who has been connected with the air department has been appointed foreman of running repairs in the round house.

The special excursion train run from Jackson, Tenn., to Evansville, arrived in Paducah last night at 10:30 o'clock on the return trip. There were 12 coaches in the train. About 100 people from Paducah took advantage of the low rate to Evansville.

Next Sunday one of the annual excursions from St. Louis will arrive in Paducah, and several hundred visitors will spend Sunday in the city. The special excursion train will leave St. Louis Saturday night and will arrive in Paducah about 7 o'clock Sunday morning via Cairo. Returning the special train will leave Paducah at 5:30 o'clock.

Tonight the Plain City lodge of machinists will meet at the Central Labor Union hall, and a full attendance of all the members is desired. The delegates, Harry Kelley and Jeff Bell, who have returned from Chicago after attending the conference in regard to the new wage scale, will make their report. The wage scale has not been signed by the union, but no trouble is anticipated although it may be at least a month before the new scale is signed. The machinists were offered the same increase that the blacksmiths accepted.

W. A. Cockrill, storekeeper at Louisville, was in the city today on business.

Maurice Lawee, a boiler maker helper, has quit the Paducah shop, and will go to Louisville.

Walter Gilliam, a boiler maker helper, was injured yesterday by a chip of steel that struck him in the right eye. The injury is not serious.

IN BANKRUPTCY.

In the District Court of the United States for the Western District of Kentucky.

In the matter of Calvin A. Hawley, a bankrupt.

On this 21st day of July, A. D. 1910, on considering the petition of the aforesaid bankrupt for discharge, filed on the 15th day of July, A. D. 1910, it is ordered by the court that a hearing be had upon the same on the 8th day of October, A. D. 1910, before said court, at Louisville, said District, at 10 o'clock in the forenoon, or as near thereto as practicable; and that notice thereof be published 1 time in the Paducah Sun, a newspaper printed in said district, and that all known creditors and other persons in interest may appear at said time and place and show cause, if any they have, why the prayer of the said petitioner should not be granted.

Witness the Honorable Walter Evans, Judge of the said court, and the seal thereof, at Paducah, in said district, on the 21st day of July.

Seal. A. D. 1910.

J. R. PURYEAR, Clerk.

IF IT'S ONLY A HEADACHE.

Why Cornellison's Headache Liver Pill will cure that, 10 cents. Guaranteed by all druggists.

The Chilean government, after a careful study of the relative cost of the two systems of telegraph between Santiago and Punta Arenas, has decided that the wireless is the most practical, and it will cost less for up-keep, as most of the route is through a wild and rough country.

YOU DON'T HAVE TO WAIT.

Every dose makes you feel better. Lax Pills keep your whole insides right. Sold on the Money-Back plan every where. Price 50c.

The German government pays damages to those injured on the state owned and operated railroads. Last year these satisfactions amounted to more than \$1,400,000, or 4 per cent on \$25,000,000.

CORONATION IN JUNE.

Picturesque Proclamation Is Made to the New King.

London, July 22.—The picturesque ceremony attendant upon the accession of King George was reenacted today when the various officers of arms proclaimed his majesty's pleasure that the coronation of the king and queen take place in June, 1911, on a day to be later determined.

Sir Alfred Scott-Gatty, garter king at arms, mounted the colonnade of the friary court in St. James palace and read the royal proclamation. Grouped about him were the officers of arms, the high balliff of Westminster and the life guards. The Duke of Connaught and others of the royal family looked on from Marlborough house.

The proceedings were repeated at Charing Cross and at Temple Bar, where admittance to the ancient city of London was solemnly demanded at the royal exchange.

CARD OF THANKS.

We wish to extend to our friends our heartfelt thanks for the kindness shown during the late illness of our loved one and the sympathy expressed at our bereavement, and for the many floral offerings.
E. L. CRUTCHER AND RELATIVES.

Coal Rescue Stations.

Washington, July 22.—The first three rescue stations to be established in the coal fields of the country as a means of reducing the number of deaths in the mines, will be established at Birmingham, Ala.; Huntington, W. Va., and Wilkesbarre, Pa. This announcement was made today by George Otis Smith, acting director of the new bureau of mines.

Arizona has a mining output averaging about \$55,000,000 a year, imports and exports (port of Nogales) of about \$15,000,000 a year, besides millions yearly for cattle and farm, garden and orchard products.

The Weather

Generally fair tonight and Saturday. Temperature today: Highest, 87; lowest, 69.
